

Your Encouragement

- The answer is six simple but life-changing words. HE WANTS US TO USE THEM.
- Discover them, develop them, make space in our lives for them, and USE THEM.
- God gives us each knacks, skills, and interests so we can live our life with passion and joy, AND to use those knacks to bless others.
- Intimidating? Not when we live the Matthew 9:29 promise, "According to your faith, it shall be done unto you." Because of our faith - it will happen.

Your Empowerment

Once you've discovered your passion, research who else is doing something similar to what you **MUST** do, but in a way you admire or aspire to. That matches or even positively stretches your values.

Reach out and ask for an appointment to pick their brain.

Be prepared. Do your homework. List your questions and ask to send them ahead. Make your final question, "What haven't I asked you, but should have?" (Email me for a copy of my powerhouse list of questions)

Be present in the moment and in this process. Remember, one day you'll be the one saying YES and giving the advice. That's how God doubles His blessings. (FYI - great book "Double Blessing" by Mark Batterson)

Good work Ladies!!!
